1 Killed and 6 Others May Die
From Pistol Wounds Received in
Williamsburg Riot

New York, July 25.—In the worst strike riot that Williamsburg has experienced since the Valley strike, one man was shot to death and others were taken to the nearest hospital, all suffering from pistol shot wounds. It is expected four of the wounded will die before morning.

ATTEMPTED TO OPEN PLANT.

The riot followed an attempt to open the immense plant of the American Sugar Refining Company. The plant had been practically closed for nearly a month. It being the intention of the trust officials to start out the strike employees.

The company's daily loss was so great that it was determined to open the plant with strike breakers secured from elsewhere. As soon as the strike leaders realized that the men tried to protect the strike breakers had been armed with clubs and stones.

Henry A. Morgan, cashier of the plant, was arrested and charged with high treason with his co-conspirator Nobleski during the rioting. Two bystanders made the complaint. He was released on \$5,000 bail.

MC KINLEY NOT SCALPED.

Party Sent Out by Oregonian and New York Herald Unsuccessful.

Seward, Alaska, July 29.—The Port manager of the New York Herald Mr. McKinley, who was sent to Seward by L. E. Irusk of Chehalis, Washington, which sailed from Seattle on the census cutter, Tacoma, April 24th, and which followed Dr. Cook's route up the Susitna and Chulitna rivers failed to find any Indians on Mount McKinley and are now on their way back to Seward.

The Indians reached the peak. Cooks alleged to be the summit, but it is ten miles from the topmost point of the mountain. They said:

The Rusk party failed to see the flag which the Thomas Lloyd party had planted on the summit last April, and the Indians are disinclined to believe the story told by the Fairbanks expedition.

The Fairbanks expedition, which Parker of New York and Belmont Brown of Tacoma, is still endeavoring to find the Indians. The Indians were brought to Seward today by W. M. McDonald, president of the Cache Creek Gold Mining Company, and the Rusk party a few days ago at Seward.

THE VILLAGE INVENTOR. A striking story of the result of his life's labor under the title of "The Village Inventor" was in the feature film at Starland last night. The son of Seth Dean was possessed of a great mind, and after many weeks hard thought and work was only satisfied at the community of his invention. He was poor, worthless, and to this girl he dedicated his life. Fate, however, had destined him to an early death, and one day we find him the protégé of a wealthy manufacturer. Soon his name became known throughout the scientific world as the "Village Inventor" and at the same time his enemies began to turn to the manufacturer's door. Finally, in the gay world of society, he leaves his little village sweetheart to play alone. But he is not alone, for he finds happiness. Seven years later we see him again, penniless and despoiled by his enemies, and he returns to his native village to take up the burden of life again. His little daughter, however, has a link remaining to remind him of his past prosperity. But fortune sees fit to give him a new lease of life, and a more gentle mood and we leave him reconciled to his former love, dwelling in peace.

This is just one picture in an exceptionally good program.

WESTERN FARMERS NEED HELP

Railways Arrange For Annual Harvesters' Excursion.

Winnipeg, July 29.—Already farmers have begun to petition for help for harvesting operations, but unless there is a large influx from the east it is not improbable that there will be no need for the large number of harvesters.

However, the railroads are taking steps to try to avoid such a condition of affairs arising, for it was announced today that a harvest excursion would be made to Manitoba, Quebec, Ontario and Ontario.

A mass of evidence sufficient to keep several grand juries busy will be presented to the U. S. attorney, Mr. Wayman and for public prosecutors in other states. The evidence is so overwhelming that the railroad officials are expected to yield.

St. Paul, July 29.—Wholesale declarations to this effect were made today by an Illinois Central official, one of whom, Mr. Johnson, who came into power when W. L. Park became president.

PREPARE THEM FROM SUICIDING

Instructions Issued By Dominion Police Relative to Dr. Crippen and Miss Levee.

Father Point, July 23.—Ide sure they are not to be blamed for the emphatic instructions received last night by Charles Gauvreau, government minister of the time. They were part of a message received by him from Lieut.-Colonel Sherwood, commissioner of the Dominion police. The minister went to my office and the department would see that Gauvreau and his colleagues were to be held in high esteem.

Gauvreau has been instructed to take the pair to Quebec.

The minister is of the opinion that there will be at least three men interested in the case, namely, Gauvreau, Chief Justice of the Supreme Court, and ex-Senator Denis of Pointe-Lévy. The latest official information received here is that the trial will be held on Saturday afternoon and the Montreal Saturday night or Sunday morning. Similar instructions were given to the police, so unreliable that all statements are being taken with a grain of salt.

Montreal, July 29.—The Star prints the following message from Commissioner Koenig of the police:

"Dr. Crippen and Miss Levee, I am confident, are on board. He is still showing his moustache, green and his strength is unbroken. Dr. Crippen is not suspected. The other passengers are all in good health. Dr. Crippen and Miss Levee refrain from talking. The pair have no baggage. They cannot be present at the trial. Dr. Crippen has stated that he has travelled much. His puts it much of his time to rest. He is very sleepless at night.

"I first suspected the identity of the couple when I got the first clue. Dr. Crippen says with regard to his companion that he is not his wife. The report says that he is taking him to California. The boy says the doctor is in the hospital there. He is in much of the time together in their room. Ordinarily they are bright and healthy. Dr. Crippen was a man of decided worth. Dr. Crippen is booked as a merchant. The woman, disguised as a boy, is booked as a student."

A LOOK OVER THE FIELD.

Football is in full swing, drawing to a close, two more matches only remaining to be played, both in the "A" division. The Hibernians, of the Y.M.C.A., forfeited their loss game with Strathearn, thereby compelling the latter team to play a double header. It is hard to say, because no matter whether a team is in the running for the championship, the players are interested in the interests of sport to finish their schedule. The Hibernians also committed a loss in the first game, but in the second game with the Callies by playing men who were not legally registered. This kind of foul play is not to be tolerated, as much as in the event of them winning or drawing the Callies would have had every right for a protest.

The latter team would have been justified in taking this course seeing that the Hibernians had been the ones to get out of the running for the championship, so that on the face of it, was a case of the Callies being the ones to be blamed for the Callies before the game started. To make matters worse the Hibernians had made a protest, but the referee had started and sent a man of who was responsible to the officials to play. It is to be regretted that the Callies would have to find a club which deliberately places the loss in the hands of the man and had it carried over in the second game.

Mr. Jack Cimino has thirty acres of land in the valley, as would wish to see. In two weeks it will be ready for cutting. The valley is the most in the game.

As far as the championship of the "A" Division, this will have to be fought out by the Callies and the St. Georges, both having finished with 12 points.

On your marks, the latter team, under

the English rules, under which the

team with the most points in the

game, wins the game.

As far as the other teams in the

league, the Callies are in the lead.

Mr. G. A. Purrington, of Boston

and Mr. and Mrs. S. C. Harold are

members of the team at T. H. Kerr's

Red Wagon team. The St. Georges

team, the St. Georges, and the

Callies are the ones to be

reversed. The Callies are confident

of the result, and will strain every muscle to win the game.

In "B" Division, the Callies won out

in all three games.

Had the score been reversed they

would also have to play off, so that the

team in both divisions has been kept

up to top pitch right to the end. The

Callies have a strong opinion as to their chances of winning the game, but the winner in the Callies' case is Dr. Crippen's match, but outside of their own immediate supporters this opinion is not shared except that outside of Hope there is hardly a man on this team who would be willing to bet on the Callies.

However, it has been a lot when a team goes on the field confident in themselves,

and if they should win out in the final

they deserve every credit.

Now the question is drawing to a close, interest is beginning to wake up with regard to the Charity Shield.

There is a good working executive behind it there is every prospect that the game will be a success.

Some surprise has been expressed that players have to be registered again for the game, but the Callies' manager has

signed on for any club irrespective of the club he has been playing for in the last

two years. The City League has really nothing to do with this competition except the courtesy of appointing three members

to sit on the executive. At the same

time, the Callies' manager has been

much changing, seeing that a man

who has been playing with a club

is not allowed to play for another club

unless every member of it is

absolutely loyal and the executive might as well be disbanded. The manager

there is that feeling of camaraderie

among the members.

Interest among one or two of the clubs has been on the wane of late, and it is hoped that the Charity Shield will

turn the tide in their favor.

Dr. Crippen and Miss Levee, I am

confident, are on board. He is still

showing his moustache, green and his

strength is unbroken. Dr. Crippen is

not suspected. The other passengers

are all in good health. Dr. Crippen

has stated that he has travelled

much. His puts it much of his time

to rest. He is very sleepless at night.

Following the handing of the team

to the City League up-to-date.

CANNOT ABOLISH TARIFF IN CANADA

Sir Wilfrid Says Financial Crisis
Would Result if Tariff Was
Abolished

Saskatoon, July 29.—Sir Wilfrid Laurier received a strong delegation this morning from the Saskatchewan Grain Growers' Association on the subject of the tariff, terminal estates and the financial crisis, and the chilled meat industry and co-operative legislation.

In his reply Sir Wilfrid said that in the opinion of the grain elevators there was a grievance detrimental to the farmers, and the government would see that it was remedied.

DISCUSSIONS TARIFF QUESTION.

On the subject of the financial crisis it was considered that the Laurier government had given the people of Canada free trade. "If we abolished the tariff, we would have a financial crisis. It would be impossible for us to raise our revenue from the railroads in England. I am in sympathy with the idea of free trade and I am not a protectionist. We want a revenue tariff and nothing else."

THE HUDSON BAY RAILWAY.

The president said the demands of the railroads in regard to the Hudson Bay Railway were rather moderate.

On the subject of co-operative legislation he said: "I see no reason why the co-operative movement in the trade should not be extended to the farmer. What is good for one is good for the other."

MONTROSE DUE SUNDAY.

World Must Wait Till Monday to
Know Whether Dr. Crippen is on
Board.

Montreal, July 28.—A Marconiigram was received by the Canadian Pacific that Dr. Crippen and Miss Leopold are supposed to be on board the C. P. ship, which was reported 200 miles east of Brest, France.

This means that with fair weather and good luck they will reach Canada on Saturday morning and Quebec the same evening.

There are, although there are thirty special cases, most of the leading papers of Canada, the United States and Europe, before definite news is ascertained as to whether or not they are on board the ship.

The lack of wireless information has caused the C. P. officials to conclude that Captain Kendall has been requested by the Canadian government to stop any such information being sent.

The Laundrie, on which Inspector Drew, who was missing before he was to be in pursuit of the murderer and his paramour, was reported at Brest, France, to be in the White Star Company that she should be due at Dakar, Senegal, on Saturday morning.

That night and at Montreal Saturday morning, it was stated that at the White Star offices it was known that Inspector Drew was on board and that he did not appear on the passenger list.

NO NEARER A SETTLEMENT.

Minister of Labor and Vice-President
Murdock Confer.

Montreal, July 29.—A conference that was to have been held between Vice-President Murdock and the Minister of Labour and Minister of Labor MacKenzie King did not bring the Grand Trunk and Canadian Pacific to a closer settlement. Neither Mr. King nor Mr. Murdock would make a definite statement, but it was agreed that this morning, and the Grand Trunk officials said they knew nothing of any further developments.

The strike situation is practically unchanged. The company declare that more men are offered to them than to their employers, that the strikers are practically beaten. Strike Leader Murdock denied the report that he was coming to an agreement with the company this morning, and the Grand Trunk officials said they knew nothing of any further developments.
